THE FOOD LAB

The Food Lab is where all the culinary Research & Development happens. It's in a secret place in the heart of the house, quiet and peaceful where the magic happens–a laboratory where our chefs create the next dishes following technique, seasonality, and trends. There's an ingredient library with hard-to-source gems. A fermentation area. A photography and video studio. Though it's an incubator for our chefs, a few lucky guests will have the chance to sample dishes in the making before they even reach our menus, dine at our Chef's Table, enjoy a wine tasting or a cooking class. This is where the magic happens.

COCOONS

The four cocoons are an exclusive private dining area next to the beach. You can dine in the great outdoors whilst taking in spectacular views of the blue lagoon in all privacy. Each cocoon is spacious and perfect for breakfast, a special brunch, lunch and dinner. It is designed for a memorable moment as a dedicated team member will be at your service throughout your time to make your dining experience in the cocoons the best one!
