DESTINATION INFORMATION

Corfu is an island full of history in the Ionian Sea. It is a home of 110.000 people, of which the 10.000 are permanent British civils, and the 40.000 live in the center of the town named Kampielo, an UNESCO protected city.

Every street in the center of the city, gives you a mixed feeling of being in Greece and in a different country at the same time, such as Italy mostly, or France as the island was in the past the home of the British, Italian, and French aristocracy.

Today there are many tourist destinations on the island of particular interest for the British, the French, the Serbs, and even the Asians. The whole of Corfu consists of a medium to high mountain range, which plunges dramatically into the sea on every side, pebble on East, sandy on West.

The Greek Island enjoys mostly spring-like temperatures throughout the winter, and warm summers, and is above all a paradise for active holidaymakers and nature enthusiasts. The highest point on Corfu is Pantokrator Mont, at 911 meters, on the North-East of the island.

GASTRONOMY

On Corfu Island, you'll find unparalleled and delicious food, ranging from typical regional dishes to international cuisine. Thanks to the location surrounded by the sea, there's plenty of exquisite fish and shellfish. There are also traditional dishes like the beef '*Pastitsado'* which has a unique secret on its recipe called '*Spetseriko'* -the mixture of the spices- and only one person sells the original '*Spetseriko'* on the island. More traditional dishes like '*Sofrito*' and '*Bianco fish*' also should be tasted for a full Corfiot gastronomy experience.
And if you love fruit, you'll find the Koum Quat fruit which was brought originally from China centuries ago and grows only in Corfu.

CORFU OLIVE OIL

Corfu olive oil has a long history, and it is known and appreciated all over the world. London "Harrods" has been selling it since 2017. Key factors are the island's rich soil and special climate, as well as the production process. Many factories are open for quests, where they can watch all the procedure in live time and taste the fresh warm olive oil at the end.

OUTDOOR ACTIVITIES

The island of Corfu offers an exceptional geography and climate for a wide range of outdoor activities. Particularly popular and reinvigorating are the traditional villages of 'Bouas' which is closed generally for visitors, and it opens only after request. Also 'Doukades' is a beautiful and picturesque village. Walking / Hiking on hidden paths, snorkeling in Paleokastritsa, are some of the favorite activities of our visitors.
Corfu also has the 3rd biggest aqua park in Europe, a great adventure for children and the whole family.

MAIN LOCAL ATTRACTIONS

- *Kanoni and Mouse Island:* The region of Kanoni and the Mouse Island (Pontikonisi) is the most picturesque spot of Corfu Town. High up on a hill, there is a canon and from there people can see the Mouse Island and the little church of Panagia Vlaherna, linked with the mainland with a narrow pathway.

- *Achilleon Palace:* The Palace was built in 1890 exclusively for Elizabeth (Sissy), the Empress of Austria. It used to serve as the summer retreat of the Empress, who named it Achillion after her favorite Greek hero, Achilles. After her assassination, it was sold to the Kaiser of Germany.

- *Old Fortress:* The Old Fortress of Corfu stands next to Spianada Square and Liston. It is an impressive castle built on a peninsula into the sea and connected to the mainland by a narrow bridge. A lighthouse stands on its top and offers a great view of the town and the sea.

- *Spianada Square:* Spianada is the most impressive square of Corfu Town and lies between the Old Fortress and the Old Town. This is the second largest square in Europe, after the Square of Saint Mark in Venice.

- *Town Hall:* The Town Hall of Corfu is housed in an elegant mansion of Venetian style, constructed in the late 17th century. At first, it used to be a club for noblemen, then a theatre and in 1903 it was turned into the Town Hall.

- *The Museum of Asian Art:* The Museum of Asian Art of Corfu is the only Asian museum of Greece and is housed in the Palace of Saint Michael and Saint Georges. It was founded in 1927 after that Gregory Manos, an ambassador, donated to the prefecture its private collection of 10, 500 objects of Sino Japanese origin. The museum was first a Chinese and Japanese Art Museum (until 1974) and became an Asian Art Museum later when its collection was enriched with other private collection objects and items from Asia.

- *The Municipal Gallery:* The Municipal Gallery of Corfu is housed in the Palace of Saint Michael and Saint George. It houses brilliant works of local artists of the 19th century and frequently it hosts important exhibitions.

- *Holy Trinity Anglican Church:* The church of the Holy Trinity in Corfu was established in 1864 to serve the needs of the vast British populace on the island at that time. During the Second World War, it was damaged by German bombs and reopened in 1971. Today this Anglican church works normally and has a very active role in the local community. It frequently organizes craft groups, bible studies, meetings of the pilgrimages and public conversations.

Corfu offers a wide variety of fascinating places to visit. Our reception team will be delighted to inform you about all the options.

FACILITIES AND SERVICES

HYATT APP

Hyatt App is a digital tool that connects associates and guests, brings our services closer to our guests' mobile phones, and enables us to offer a unique and unforgettable experience.

It provides access to all hotel information, from service hours to restaurant menus, maps and event programmes. Furthermore, the chat feature allows guests to contact the hotel's reception from their mobile devices. Guests can also request any type of service, whether it be room service or amenities, or even reservations for a table in one of our restaurants. In turn, our associates can manage all of our guests' requests from a single platform, reducing waiting times and queues and it enables greater control over what is happening in our facilities in real time.

Additionally, with our Hyatt App, we eliminate tons of paper and achieve a faster and more efficient service management.
