DESCRIPTION OF HOTEL & LOCATION

COOK'S CLUB ADAKOY boasts a unique setting: perched on the sun-drenched Adaköy peninsula, and on the edge of one of the Mediterranean's most lively cities. The southern shores of the bay at where the resort is located feels remote, despite being no more than a 20-minute taxi ride away from Marmaris.

"Adakoy" means "Island Village" in Turkish, thus simply describing this authentic Aegean Island Village-like resort hotel consisting of converted houses with variable facade and design reflecting different cultures of generations.

The most important highlight of the Cook's Club Concept is the innovative and new generation food preparation, cooking and serving style ! There is no bland open-buffets in Cook's Club Adakoy, at where food is prepared and cooked by using fresh ingredients in front of guests eyes as they order in 7 different food station and presented as Self-Service during longer than usual serving hours. Moreover menus change daily and each meal at all stations offering variety of options from vast range of international kitchens to appeal all tastes.

From the shores of this unique Turkish headland, you can find your inner balance at our outdoor yoga platform, along the beautiful bay of Marmaris. There are plenty of opportunities to explore the land by foot, with hikes in the Marmaris National Park and through ancient

caves, providing stunning views over the Mediterranean Sea.

This authentic and charming resort facility has the most beautiful, yet secluded private beaches in the region. The small Bedir Island lying in front, gives an excellent protection while hiding the resort away from Marmaris.

Music is the backbone of the Cook's Club Adakoy experience, but it's not a party hotel. We'll place you right on the fringe of the party, serving up a healthy dose of mood, while also leaving you the space to relax, tune out and find your inner zen.
