## **Congratulations!** You have made a green choice by staying at a Green Star certified hotel.

Help us to further reduce our environmental footprint and our use of resources by following these tips during your stay.

### Use the towel an extra day

To reduce the use of detergent, packaging, water, and energy, we offer you the possibility to use your towel for an extra day. If you wish to reuse your towel, please hang it up. Otherwise, leave it on the floor, and it will be changed.

### Sort the waste

Waste is a resource that can be reused. Please assist us in separating waste by utilizing the designated bins provided for recycling and garbage in our hotel. This helps us effectively manage resources and reduce environmental impact.

### Drink water from the tap

By consuming Brita filtered water, you help us reduce the consumption of single-use plastic, which helps to reduce pollution from plastic waste.
