PLACES OF INTEREST

Name:	Amphiteather El JEM
Distance from hotel:	42 km
Description:	The Amphitheatre of El Jem bears outstanding witness to Roman architecture notably monuments built for spectator events in Africa. Located in a plain in the centre of Tunisia this amphitheatre is built entirely of stone blocks with no foundations and free-standing. In this respect it is modelled on the Coliseum of Rome without being an exact copy of the Flavian construction. Its size big axis of 148 metres and small axis 122 metres and its capacity judged to be 35 000 spectators make it without a doubt among the largest amphitheatres in the world. Its facade comprises three levels of arcades of Corinthian or composite style. Inside the monument has conserved most of the supporting infrastructure for the tiered seating. The wall of the podium the arena and the underground passages are practically intact. This architectural and artistic creation built around 238 AD constitutes an important milestone in the comprehension of the history of Roman Africa. The Amphitheatre of El Jem also bears witness to the prosperity of the small city of Thysdrus current El Jem at the time of the Roman Empire.
