MARINA PALACE

NESSEBAR

SOL MARINA PALACE 4*

ADULTS ONLY (16+)

Location:

Sea front hotel just 50 m from a virgin small free access beach & 300 m away from the large public beach. Within 500 m walking distance from the center of Nessebar and 650 m from the old historical town of Nessebar part of the world heritage list of UNESCO.

The hotel unites the romantic atmosphere and the coziness of the Old Town with the attractive night life of Sunny beach. The 4-star Hotel Sol Marina Palace is located in the immediate vicinity of the Old Nessebar. Its unique location and quality of service is a very good choice for both relaxing and active holidays, combined with entertainment and learning.

About the destination:

Nessebar is an ancient city and one of the major seaside resorts on the Bulgarian Black Sea Coast, located in Burgas Province. It is the administrative centre of the homonymous Nessebar Municipality. Often referred to as the "*Pearl of the Black Sea*", Nessebar is a rich city-museum defined by more than three millennia of ever-changing history. The small city exists in two parts separated by a narrow man-made isthmus with the ancient part of the settlement on the peninsula (previously an island), and the more modern section (i.e. hotels, later development) on the mainland side. The older part bears evidence of occupation by a variety of different civilisations over the course of its existence.

It is one of the most prominent tourist destinations and seaports on the Black Sea, in what has become a popular area with several large resorts—the largest, Sunny Beach, is situated immediately to the north of Nessebar.

Nessebar has on several occasions found itself on the frontier of a threatened empire, and as such it is a town with a rich history. Due to the city's abundance of historic buildings, UNESCO came to include Nessebar in its list of World Heritage Sites in 1983.

Planned improvements and investments for season 2024

1.Investments in renovations:

-Design
We have planned renovation of our lobby area as we believe that the first impression that our guests have when they enter the hotel is very important. This is why we plan to redesign the lobby, change the furniture and make a new chill lounge zone where our guests can sit to read a book or just chillout.

-Pool
Focusing on the new only adults concept we plan to reform our existing children's pool into a lounge pool area with underwater beds with massage function. Guests will be able to enjoy the breathtaking views offered from our rooftop while sitting in the jacuzzi with a cocktail in their hand.

-Rooms
For season 2024 we have decided to completely refurbish 10 of our rooms including complete renovation of both the bathroom and the bedroom. These are the rooms with the best sea view in the hotel and we will position them as Deluxe rooms. This will be the first step taken towards continuous complete renovation of all the existing rooms of the hotel.

-Main restaurant outdoor area
To provide more outdoor seating area for our guests we plan to extend our existing decking and pergola and to increase the number of outdoor tables.

-Sustainability
As a hotel part of the Sol Melia chain we thrive to follow the corporate strategy of Melia and to focus on reducing our carbon footprint. Following this strategy significant investments are planned for season 2024 including installation of solar panels for electricity production and installation of new energy efficient heat pumps. Moreover we have planned to change all the lighting installation in the common areas of the hotel.

2.Changes in the management focusing the ADULTS ONLY CONCEPT:

-Food and Beverages concept

We plan to provide a more healthy and modern selection of food and snack options in the main restaurant. Moreover we plan to provide more healthy drink options such as detox waters and juices, fresh juice, smoothies etc. To ensure that our guests will be always treated well we plan to establish regular times at which special thematic serving of drinks will be provided (e.g. mojito nights, margherita afternoons, etc.).

-Entertainment

-In Hotel Entertainment

We always thrive to provide sufficient animation to our guests. Doing so we already have 7 themed nights in our main restaurant 2 of which with live dance shows and one with live music. Apart from this we have 2 live music nights per week in our Marina Bar and saxophone live music at our rooftop gourmet restaurant during dinners. Following the trends for healthy living, meditation and connection with the nature we plan to organize regular meditation and gymnastic sessions at our rooftop terrace with stunning views towards the sea and the old town of Nessebar.

-Out of the Hotel Entertainment

Considering that one of the strongest sides of our hotels is its proximity to the beautiful old town of Nessebar preserved by Unesco we want to focus more on offering additional benefits to guests outdoor of the hotel. To do so we plan to partner with local businesses such as restaurants, shops and museums in the old town and to offer special discount vouchers for hotel guests as well as custom tailored services and tours of the old town.
