Olhahali Island Partner Update

News From Our Majlis

Warm greetings from Jumeirah Olhahali Island.

Following our earlier communication, we are delighted to confirm the completion of our newly transformed One-Bedroom Ocean, Lagoon and Grand Lagoon Villas, each thoughtfully renewed to offer a more refined expression of island living.

As the programme moves into its next phase, selected areas of the resort are now being enhanced, including the Beach Villas, Overwater Talise Spa, the former Glow Restaurant and Jumeirah Circle. During this period, guests may notice screened areas, temporary venue relocations and activity associated with the ongoing works. Our teams continue to carefully manage the programme to support a smooth and comfortable guest experience.

Talise Spa treatments are currently being offered from two spacious Two-Bedroom Beach Residences, creating a private and serene setting while the Overwater Talise Spa undergoes enhancement. The renewed Talise Spa experience is planned to open in October.

For younger guests, Jumeirah Circle activities continue from a dedicated Beach Villa, ensuring an engaging programme throughout their stay. The newly reimagined Jumeirah Circle is also on track to open in October, ahead of the festive season.

During this period, Glow's breakfast, lunch and dinner offerings are available at Kayto. In August, guests can also look forward to the opening of Alaaya Bay, our new open-fire dining destination serving lunch and dinner, in a distinctive island setting. Looking ahead to October, the former Glow Restaurant will reopen as The Palmery, an elevated international dining destination and the resort's dedicated breakfast venue. Casa Lucia will also make its debut, bringing the warmth and coastal flavours of Southern Italy to the island through an inviting new Italian dining experience.

The resort remains fully operational throughout this period, with its signature island experiences, dining, wellbeing offerings, family activities and Jumeirah's warm hospitality continuing across the island. These enhancements have been carefully phased to ensure an even more elevated guest experience in time for the festive season and beyond.

Newly Reimagined Villas

A Closer Look at the Reimagined West Jetty Villas

The newly transformed One-Bedroom Ocean, Lagoon and Grand Lagoon Villas on the West Jetty offer a renewed villa experience, blending refreshed interiors with open-air island living.

Created with a focus on light, space and craftsmanship, the villas feature warm neutral interiors, floor-to-ceiling windows and a living-area skylight that brings natural light into the heart of the space. A signature Pivot Wall allows the bedroom and living room to either flow together or close off for privacy, giving guests greater flexibility throughout their stay.

For families and shared stays, the addition of a queen-size sofa bed enhances comfort and versatility, making these villas especially well suited for guests travelling with children. Thoughtful design details include handmade Moroccan tiles at the entrance, bedside pieces inspired by the Boduberu drum, handwoven rattan accents and original artworks that reflect everyday island life.

Each villa also features a private rooftop terrace, which can be transformed into an intimate dining venue or open-air cinema for unforgettable experiences beneath the stars. Outdoors, a 7-metre infinity pool and sunken lounge open directly to the ocean, creating a calm and considered setting for guests to enjoy the surrounding seascape.

To support your guest conversations, we invite you to explore the latest social image gallery of the reimagined West Jetty villas.
